

Find Your Words

A Core Vocabulary Storybook Collection

32 Words for School, Home, Feelings & Hanging Out

A companion to Talking Together: A Family Guide to LAMP and the LAMP Words for Life App

How to Use This Collection

This book is built the same way the LAMP Words for Life app is: every core word keeps the same color every time it appears, so the pattern becomes familiar fast. Green words are actions. Blue words are descriptive words — the same color logic used on the AAC device itself.

Each page has one short, repeatable sentence and a colored target word, plus a “Model it” box — a ready-made line you can say out loud while pointing to the word, the same way you would model it on the AAC device. Nothing to prep; just read the page as written.

The 32 words are grouped into four real-life chapters — School & Schoolwork, Home & Chores, Feelings & Self-Advocacy, and Hanging Out & Interests — and each chapter keeps every word from the chapters before it, so vocabulary keeps building instead of resetting.

Printable for home, school, or therapy: print single-sided for a binder or folder, or double-sided to save paper. Each chapter's review page also works well as a stand-alone handout.

Suggested pace: one chapter every one to two weeks, revisiting earlier chapters rather than rushing ahead. If a word isn't landing, that's useful information for your child's SLP — not a sign to skip it.

Color legend:

green = action word

blue = descriptive word

Contents

How to Use This Collection

Chapter 1: School & Schoolwork — want, need, help, more, stop, go, look, wait

Chapter 2: Home & Chores — do, get, put, clean, eat, drink, all done, again

Chapter 3: Feelings & Self-Advocacy — feel, happy, sad, mad, tired, hurt, yes, no

All 32 Words at a Glance

Same colors throughout — green for action words, blue for descriptive words — matching the LAMP Words for Life app.

want	need	help
more	stop	go
look	wait	do
get	put	clean
eat	drink	all done
again	feel	happy
sad	mad	tired
hurt	yes	no
play	like	listen
watch	share	turn
come	with	

A Note for Parents & Providers

Every word in this collection lives on the LAMP Words for Life app too. A great next step after reading is opening the app together and finding these same words — pointing out that, just like in this book, each one lives in the same place every time.

This collection is meant to be reread, not read once and shelved. Repetition across days and weeks is what builds an automatic motor and language pattern, on the page and on the device.

For more on modeling, daily-routine ideas, and choosing the right vocabulary level on the app, see the companion guide: *Talking Together — A Family Guide to LAMP and the LAMP Words for Life App*.
